**How do All Voters Know That General Elections in November will be Reliable and Comprehensible?**

Have Election Officials done Everything to Organize a Fair General Election in November?

Dear Editor,

There is a Report that shows how elections can be:

- > done in a way that every voter is satisfied with the voting and election system.
- > cost effective, in fact that they are 30 times cheaper than the current election.
- > so efficient that the overall man-hours per eligible voter amounts to only 30 seconds.

There is also a compliance logo which shows to every voter, who goes to a polling station, that:

- > there, all the votes are counted correctly.
- > the voter can be assured that all procedures are done in a most democratic way.
- > voting is done with reliability and comprehensibility.

We think that all voters should be aware that such elections are possible.

On the other hand, all election responsible should be prepared to answer:

"Why didn't you read a report to make elections secure, safe, easy, cost-effective, comprehensible and reliable like the Swiss Voting System?"

Please find more information on [www.swissVS.org](http://www.swissVS.org) , or contact me at any time.

P.S.: As you know, the topic is urgent.

Sincerely,

Beat Fehr
